

REPORT - GEOR001663

<u>Unconfined compressive strength of intact rock and salt core specimens</u> (According to ASTM 7012 D)

(The test performed according to Lab procedure № 1200)

| No. | BS - 24 |
|------------------------------|---------|
| Depth of tested specimen, m. | - |

| Project No. | 609029 |
|------------------|-----------------|
| Project Name | Kokhav Hayarden |
| Date of sampling | - |
| Date of testing | 04/07/2018 |

| Rock description: | Amygdaloidal Basalt |
|-------------------|---------------------|
|-------------------|---------------------|

Note:

| Х | The test was performed at natural moisture content. | | |
|---|---|----|-------|
| | The test was performed after saturation of | 48 | hours |

| Specimen conditions: | | Initially | After Saturation |
|--------------------------|-------------------|-----------|---------------------|
| Wet Mass | gr | 350.70 | |
| Diameter | cm | 4.79 | |
| Length | cm | 9.72 | |
| Area | cm ² | 18.01 | |
| Height to diameter ratio | | 2.03 | |
| Dry Unit Weight | kg/m ³ | 1830 | |
| Water content | % | 9.4 | |
| Void Ratio | - | - | - |
| Water Absorpsion | % | - | - |

| Test Results: | |
|--|-------|
| Maximal Applied Force in failure, kN: | 24.05 |
| Unconfined Compressive Stress in failure, MPa : | 13.35 |

| Test Conditions: | |
|-----------------------------------|-----|
| Test Time t, sec | 273 |
| Temperature during the test T, C° | 25 |

Performed by:

Andrey Makeev Lab. Technician

- 1. This report is the sole property of the Building and Infrastructure Lab Ltd until the Client has fulfilled all his obligations toward the Lab.
- 2. The results pertain to the tested sample material only.
- 3. This report should be taken as one whole report and not to be copied or published in parts or pieces of any kind.
- 4. The data and details of sampling/ testing are according to the information as provided by the client or his representative.
